Your Astro-Forecast begins on the next page. If the time period for an interpretation is, for example, given as "July 1, 2023 (June 15, 2023 to July 15, 2023)", then it starts in mid-June, reaches greatest intensity around July 1, and ends in mid-July. The first date listed is the time when the influence has reached maximum strength; we can call this date the "peak date". The influence starts on the beginning date, gradually increases in strength until the peak date is reached, and then it gradually fades out until the ending date is reached.

An influence may last for as little as a week to as long as half a year or so. It is a good idea to look ahead in your Astro-Forecast Report for long-lasting influences, as you otherwise may not realize that it is in effect until you are already several months into the time period of the influence. Some people underline the dates of long-lasting influences with a colored pen to draw attention to them.

You may also notice that the same interpretation shows up periodically during the year; this is not unusual. In some cases the beginning and ending dates of the 2 influences are the same; the only difference between the 2 interpretations is the peak date. This means that this particular influence has two peak dates instead of one. It is even possible for there to be three or more peak dates for the same astrological influence. To eliminate redundant interpretations, you may be informed that the astrological influence also occurred earlier and that you should refer back to the previous occurrence of this interpretation.

You may be wondering what the funny abbreviations after the dates are. For example, you may see "Sat Conj Plu", "Ura Trine Nep", etc. These abbreviations are given for the benefit of astrologers and they show the astrological factor that is in effect.

We hope you enjoy your Astro-Forecast.

For the benefit of astrologers, some technical details are given below.

Mar 6, 2023 (Feb 25, 2023 to Mar 14, 2023) Sat Trine Jup

Ensuring future well-being by attending to practical matters now is one of your current concerns. Your thinking is pragmatic and reality-based. You make clear, rational choices now because you understand the long-term ramifications. You see the bigger picture. Investments of all kinds, including investing in your practical education, are favored. You are willing to undertake the disciplines or other requirements necessary to grow and to improve your life. Even delays or other restrictions work out to your benefit.

Positive Potentials:

Patient, steady progress. Consolidating, laying a solid foundation, bringing order to your affairs. Contract fulfilled. Clearing up any pending legal matters. Assistance from elders, employers, or other authorities.

Negative Potentials:

Very few negative potentials are associated with this.

Remedies and Suggestions:

Use this time wisely to fund the financial and energy resources you will need in the future. If you are a practical and well-grounded individual, you may hardly notice the effects of this transit, or you may gain recognition and credibility in the eyes of people you respect. If you are just getting started in life or if your practical affairs could use some attention, this is a time to get to work and to take on what you can reasonably manage.

Mar 7, 2023 (Feb 27, 2023 to Mar 16, 2023) Sat Qucnx Mars

During this period you frequently feel like the mythic hero who was doomed for eternity to push a boulder up a hill, only to have it come rolling back down each time he was about to make it to the top. Frustrations and setbacks challenge your resolve. Your desire or energy may lag, or your projects be stalled by other circumstances. It is essential for you to prioritize and to conserve your energy. Attempting to do too much,

or scattering your energies, can lead to mishaps or depletion of your reserves at this time. You may experience a dampening of your enthusiasm, ambition, or drive, or a subtle refocusing of your drive into new areas.

Positive Potentials:

Although not especially pleasant, this time can be used to take stock and to fund your strength for future endeavors.

Negative Potentials:

Becoming discouraged and/or focusing on your deficits and defeats is a temptation now. If you have overextended yourself, or are "doing your own thing" without regard for others, a major setback could occur. Muscular tension and strain can be a problem too.

Remedies and Suggestions:

Don't push yourself too hard and don't judge the outcome of an entire project, relationship, or endeavor on whatever obstacles present themselves now. If you feel right about the project overall, be patient and take small steps in the direction you want to go.

Find ways to release tension safely and resist the temptation to lash out at others.

June 17, 2023 (May 13, 2023 to July 23, 2023) Sat Trine Asc

Realism, practicality, and a grounded, mature perspective colors your approach to everything in your life at this time. You are not inclined to risky or ill-considered maneuvers, but to sensible decisions and steady, solid efforts.

You impress others as a disciplined and reliable individual, and may be asked to take on a position of increased responsibility or authority. This may be the kind of position that sounds prestigious but actually entails a lot of details and work that no one else is willing to do, so you may want to think twice before you graciously accept or decline the offer. Nevertheless, you give the impression that you know yourself and what you're about, which adds to others' esteem of you.

If you are usually rather conservative or cautious, these qualities are amplified now which can keep you focused on maintaining the status quo. If you are usually a bit flighty, dreamy, or idealistic, these qualities will be offset by a earthy practicality that can give you a greater sense of ballast and balance.

Positive Potentials:

Clear-sighted, mature decisions based on a reasonable estimation of the facts and of the history of a situation. A sense of equilibrium, stability, and balance.

Negative Potentials:

As mentioned above, tendencies toward excessive caution can inhibit your willingness to venture into anything new or untried.

Remedies and Suggestions:

This is an excellent time to make real progress in pursuit of your personal ambitions, or to grow in mastery of a particular technique or discipline. Either find an excellent teacher to help you, or teach others your expertise. This will fulfill the best potentials of this time.

Feb 28, 2024 (Feb 19, 2024 to Mar 7, 2024) Sat Sxtil Ven

This is a period of equilibrium and stability in your closest relationships. You may find that you are a little conservative about meeting new people, that you are happier with old friends or just enjoying your own company. People who meet you now for the first time may see your more serious, businesslike, practical side, and this may be a benefit in professional situations. Financially, too, you're apt to be somewhat conservative, careful, and to be playing it safe - not out of fear but from a realistic assessment of things.

You're attracted to traditional methods and styles, classics, antiques. If you are an artist or involved in creative work of any kind, you may begin to draw upon an ancient tradition, to learn from a master, or to begin working with heavier, more permanent materials. You're interested in a higher quality of work and skill in your creative expression and in creating something that will stand the test of time.

Positive Potentials:

This is a very favorable time to make an emotional commitment - to get married or engaged, for instance. Relationships with teachers, elders, and mentors are also very beneficial now. A new and deeper appreciation for the simple blessings of life.

Negative Potentials:

There is very little of a negative nature associated with this time period, although you may not feel as excited or fired up as at other times.

Remedies and Suggestions:

Enjoy quiet solitary work. Do something wonderful for your long time love or a cherished old friend.

Mar 5, 2024 (Feb 25, 2024 to Mar 13, 2024) Sat Conj MC

Coming into your own in terms of worldly achievement, making your mark, or seeing the tangible results of your long-term choices is the theme of this time. You could come into a position of greater responsibility and power, taking on the mantle of authority in some area where you have worked long and hard. In any case, it is a culmination and a harvesting time. The success you garner now has been earned. If you have mismanaged your life in some respects, or not been honest and ethical in your dealings, this will be reflected in a very obvious way now. You are reaping what you've sown. Often there is a combination of the two sides: you see where you have been solid and on the mark, and where you have disappointed yourself or failed to meet your goals. There is a general feeling of seriousness, heaviness, or conscientiousness at this time. It's not a period to relax your efforts or rest on your laurels, either. Whether tangible success is yours now or not, there is still pressure and the weight of responsibility on your shoulders.

Positive Potentials:

Discipline, commitment, productive and serious work, solid achievement. Pinnacle and fulfillment of long-range goals. Coming to terms with one's limitations and realistically assessing one's strengths. Being rewarded with the fruits of a long-term endeavor.

Negative Potentials:

Regrets, losses, a sense of failure, or a discouraging comedown (especially if your "rise" has been at the expense of others).

Remedies and Suggestions:

Even if you're experiencing the gratifying fulfillment and recognition for your work that could come at this time, you may have to sacrifice something to accept it - perhaps some personal privacy or time, a friendly camaraderie with the people you are now in charge of, or freedom of self-expression (i.e. you have to look, dress, or present yourself differently). It's time in some way to fully mature and play the role you were meant to play.

Beware of excessive self-blame or recriminations if this is a difficult time for you, or if you are defeated in some manner. Learn from your experience, cut your losses, and take the hard nut of experience to plant in your next field of endeavor.

Apr 15, 2024 (Apr 6, 2024 to Apr 25, 2024) Sat Qucnx Plu

An unavoidable ending, separation, or loss colors this time period, and even if this entails leaving a bad situation or unburdening yourself of things you don't really want or need, you may feel some sorrow or stress over it. External demands and pressures, dealing with things that break down, or handling the fallout of another's

crisis tests your endurance.

This may also be a time of patience, stillness, and waiting, when there appears to be no movement happening. Forces are at work that you have no control over, so trying to manipulate an outcome brings frustration.

Positive Potentials:

Patience, inner firmness, and knowing when to let go fosters a resolution.

Negative Potentials:

Heavy restrictions, regulations or problems with authorities. A tendency to fixate on what is wrong, and on the dark side of a situation, rather than holding a balanced perspective that admits both sides.

Remedies and Suggestions:

This is a time to "work on what has been spoiled", as the I Ching recommends. Eliminate and get rid of the deadwood where that seems necessary, and patiently work to amend, repair, and salvage what you can.

Apr 17, 2024 (Apr 8, 2024 to Apr 28, 2024) Sat Trine Ura

This can be a remarkably productive time, though not necessarily your most wildly original or inspired. At this point you are interested in tangible results and in giving some form to your ideals or your personal creative genius. You are influenced by practical considerations and are willing to compromise to accommodate them without the resentment that might ordinarily bedevil you. Regular work habits, self-imposed disciplines, and patience are allies to your creativity, eccentricity, or inventiveness. Practical inventions and creative problem-solving that takes diverse needs into account are the result. Some solid financial backing or guidance can play a part in this as well.

Positive Potentials:

Stabilizing energies enable inspiration and ideals to be actualized in some down-to-earth ways. Being a bridge or a mediator between the forces of change, innovation and discontent, and the more conservative, security-conscious members of a group or organization. Making changes in a timely and orderly manner. Inventing a tool or creating functional, useful art works.

Negative Potentials:

Losing sight of the inspiring vision or original impulse by overemphasizing the pragmatic approach.

Remedies and Suggestions:

Because this is not a particularly glamorous or exciting moment, you may underestimate its importance. Give yourself credit for doing the work, for taking the small, incremental, even tedious steps needed now. Ask for help from others more experienced in your field, or offer to guide and teach others. Your spirits are rekindled

by contact with others in your family/group.

May 21, 2024 (May 7, 2024 to June 13, 2024) Sat Sqr Nep

This is a period of realistically facing illusions, deceptions, addictive or avoidant behavior, and issues you may have been unwilling to see clearly in the past. Serious deficiencies in someone or something you have idealized may cause you to reassess. You may question the depth of your honesty and your commitment to your promises or ideals.

Your mood is one of detachment, disenchantment, and possibly self doubt and cynicism. You tend to see yourself and others in a harsh light, which can generate feelings of guilt and general despondency. Or, you may simply feel spiritually dry and barren, as if the fount of inspiration and comfort had dried up. It's a time of deepening, maturing, sending your roots down even further to tap spiritual nourishment. Practical service or even self-sacrifice, rather than dreamy idealism or airy fantasy, is your path at the moment.

Positive Potentials:

Disciplined efforts to overcoming negative dependencies and habits can lead to substantial improvements. Reclaiming personal responsibility and personal power. Ability to give up, do without, or sacrifice comfort in order to actualize a dream, "walk your talk" or surrender negative attachments.

Negative Potentials:

A gloomy, anxious, disheartened mood. Inability to see the positive elements. Lessened vital energy.

Remedies and Suggestions:

Taking some time alone in quiet surroundings; perhaps a sabbatical or retreat may be helpful. Simplify your life. "Fast" from activities and people who reinforce a fearful perspective, whether in the form of "entertainment", "spirituality", as simply people who drain your emotional resources.

Refrain from making long-term decisions now, as you tend not to see the whole picture at the moment. You may perceive things as darker, harder, and tougher than you will feel they are further down the road. Seek help for addictive patterns you wish to be free of.

Mar 26, 2025 (Mar 18, 2025 to Apr 3, 2025) Sat Qucnx Sat

Delays, obstructions, and hindrances characterize this time period. What appeared to be moving forward may slow considerably or come to a standstill. Extraneous activities and involvements may need to be curtailed so that you can focus on more immediate demands and dealing with the obligations that arise. There may be pressure to clear up old business.

The awareness of time and its limitations weighs in heavily now, perhaps with a concern about physical aging, the changing needs of your body through time, the sense that you have "wasted" more time than you would have wished. And it may not be the right time to proceed with something previously planned.

You're more careful, guarded, and withheld in many areas of your life, and this may be a useful strategy now. Forging ahead despite clear indications that this isn't wise can set you up for some real trouble.

Positive Potentials:

Choosing to slow down or give something up in order to concentrate on essential matters. Difficult responsibilities handled with grace. Deepening, maturing, accepting limitation as a friend using delays or defeats as an opportunity to realign your direction.

Negative Potentials:

Doubt, self-judgment, self-criticism, and negativism that need to be released or worked through.

Remedies and Suggestions:

Slow way down, especially if your body or external circumstances seem to be frustrating your free forward movement. Determine to be constructive and focus on what you CAN do now, rather than what you can not. Humor is very helpful now to prevent yourself from being too weighed down. Take small breaks. Ask for help if you are very stuck, blocked or in pain.

Apr 23, 2025 (Apr 14, 2025 to May 3, 2025) Sat Sxtil Moon

At this time you are apt to be a stabilizing force for the people around you, especially your relatives. Family responsibility, family cohesiveness, and maintaining strong, supportive bonds are especially important to you.

Within yourself, you are feeling more clarity and steadiness as well. You have an increased capacity for self-discipline and self-control which would enable you to follow through and to succeed in making any changes in lifestyle, diet, etc. that you feel would be positive for you. You want real progress and are now able to take realistic, small, incremental steps to achieve that. You are apt to avoid anything that seems frivolous or ungrounded. Others may see you as unexciting, lacking fire or imagination. However you are more self-contained and content with your own companionship than usual.

Positive Potentials:

A mature, constructive, and responsible attitude towards your life and towards others. Being more responsible and conscientious, which elicits positive responses from elders, authorities, bosses, etc. Enjoyment of quiet times, simple things; getting back to basics.

Negative Potentials:

Taking on more than your share of work and responsibilities. All work and no play.

Remedies and Suggestions:

This is a time to build strong foundations - in your work, in your family, and in other relationships that are important to you. You mostly feel like playing it safe (unless other astrological factors are strongly influencing you otherwise). If so, trust yourself. Listen to your own guidance, feelings, intuition, and gut sense right now, as you are apt to be very clear and accurate at the moment.

May 22, 2025 (May 11, 2025 to June 6, 2025) Sat Sqr Jup

A serious delay or setback may challenge your aspirations or hopes for the future, but it can also help you clarify and define your goals and lead you to formulate workable strategies for achieving them.

Economic stress, security issues, and the need to cut back and focus on essentials is emphasized, especially if you've been extravagant in the recent past.

Roadblocks and obstacles, tedious bureaucratic procedures, legal problems, or a crisis in faith can be a part of this picture. Slow down or stop, and reassess. You may need to redefine or restructure your life in order to put yourself on more solid footing.

Positive Potentials:

Eliminating waste, inefficiency, and superfluous elements in your life. Gaining maturity and clarity about your purpose or long-range ambitions. Creating and committing to diets, budgets, or other programs which address previous waste or excesses.

Negative Potentials:

Sobering realizations that overshadow any positive, hopeful aspects of a situation. Allowing the voice of "realism" or practicality to squelch hopes and vision. Legal, health, or financial losses. Frustration and extreme restlessness.

Remedies and Suggestions:

Taking responsibility for your life, rather than blaming unjust circumstances or restrictive authorities, empowers you to make decisions that will benefit you in the long run. Patience, humility, and the willingness to eliminate what isn't really working will free you up again.

Remember that ups and downs, expansions and contractions will be a part of any life, and don't allow yourself to lose hope or positiveness about your future.

May 24, 2025 (May 12, 2025 to June 9, 2025) Sat Trine Mars

You are capable of consistent and sustained effort during this period, making it a favorable time to undertake large projects. Increased patience and willingness to work steadily enables you to get a great deal accomplished now. This is the time to practically implement ideas and plans, to bring them down to earth and make them a reality. You have more discipline than usual and can use it to direct your will into any constructive endeavor. This is a "building" time-you may literally be involved in building projects, or you may be building a solid vehicle for future success in your profession or other areas.

You tend to be even-tempered now and to have a stabilizing, steadying effect on those around you. You may want to coach or mentor the younger generation, to help them along.

Positive Potentials:

Solid and lasting accomplishments achieved through hard work and wise planning. Good organizational abilities. Positive relations with elders and authorities. Working successfully within a tradition. Successful training.

Negative Potentials:

You tend to be rather rigid and unyielding, and perhaps less open to experimental innovations. Security concerns may take precedence over all others.

Remedies and Suggestions:

This is not a very exciting period (unless other astrological influences are active), but one in which much can be created and accomplished. Give yourself credit for your good work!
